Subject: Equipment Needs for a Research Study

DSS: No

FW: Midac Lease
Quote

FW: LifeShirt terms
sheet

Hi Pam:

When you have a free minute, could we talk about the two attachments? We anticipate these needs to support a research study to take place (hopefully) later this year. We're trying to determine whether a PO would be a sufficient mechanism to procure or if contracts are needed.

Thanks,
Valerie

PS - Gwen: We talked with Gerd's group re the lifeshirt; for the purposes of study execution, it looks like we'll need to procure our own devices.
